

ELECTRIC HEDGE TRIMMERS

NEW! Extra-strong reinforced blade frame bar

NEW! Dual-handle switching stops blades in less than 1/2 second if either switch is released

Most hedge trimmers (left) feature only one set of blades that move. Little Wonder Electric Hedge Trimmers (right) feature double reciprocating blades for faster cutting and manicured results.

Cord retention system prevents extension cord from disconnecting

The motor features helical cut gears for added torque and durability

NEW!

Double-edge models feature an ergonomic front loop handle with multi-grip locations

NEW! Dual-handle switching stops blades in less than 1/2 second if either switch is released

Double-edge models feature a safety comb that enhances blade performance and reduces the risk of injury
